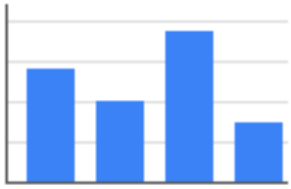
Quarterly report

Revenue grew in every region this quarter, led by demand for the new product line.



Regional performance

All three regions beat their revenue targets. The detailed figures are in the appendix at the end of this report.

North America

Revenue rose 18% to $4.2 million, driven by enterprise renewals and the launch of the Atlas product line in Canada.

Europe

Growth slowed to 6% as two large contracts moved into the fourth quarter. Our regional director called it *“a timing issue, not a demand issue.”*

German subsidiaries report this line as *Umsatzerlöse*.

Outlook

Pipeline for Q4 is up 25% on the same point last year.

Priorities for next quarter:

1. Close the two delayed European contracts.
2. Expand the Atlas pilot to three more enterprise customers.
3. Hire a second account manager for the Canadian market.

Appendix: method

Figures come from the finance warehouse, using this query:

```
SELECT region, SUM(amount) AS revenue
FROM invoices
WHERE quarter = '2026-Q3'
GROUP BY region;
```

All amounts are in US dollars and exclude sales tax.

Note: these figures are unaudited and may change before the annual report.
